CAPABILITIES

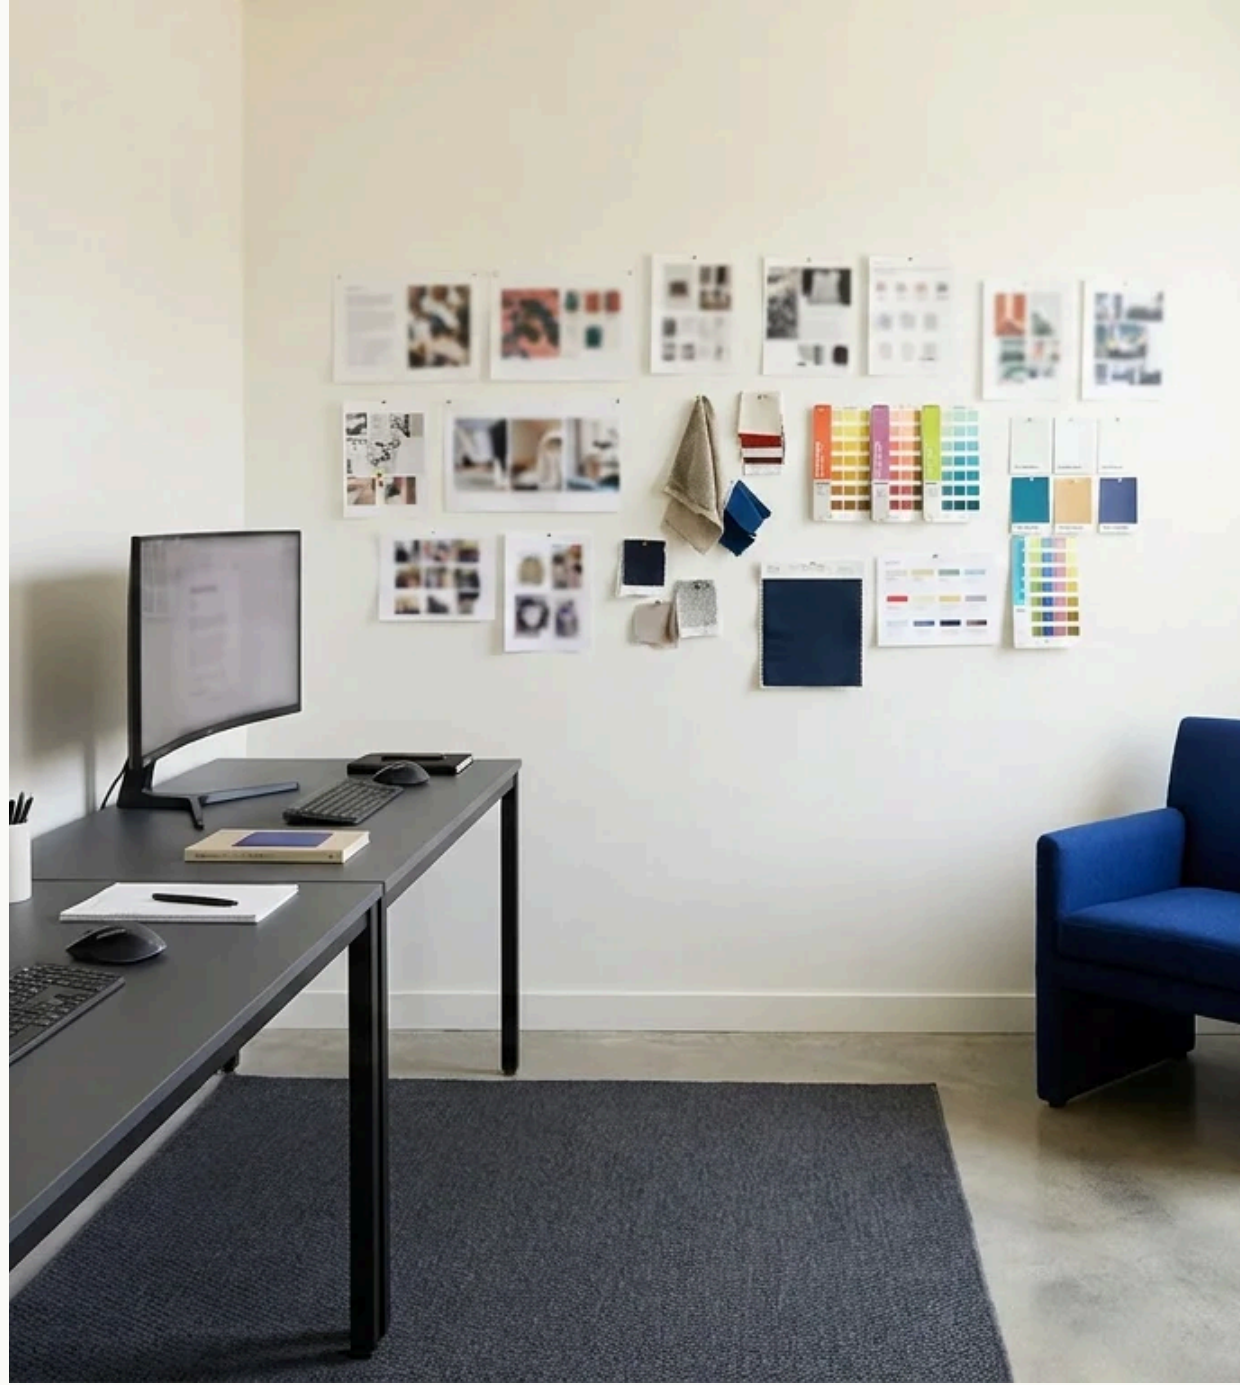

JUNO ARTISTRY

Identity, packaging, and digital design for small, serious brands.

THE STUDIO

Three people, senior work only

Juno Artistry is an independent design studio in Portland, Oregon, led by founder & creative director Noa Lindqvist with senior designer Theo Brandt and producer Marisol Vega. Every project gets a senior designer end to end — no hand-offs, no juniors learning on your budget.

WHAT WE MAKE

Services

Brand identity

Naming, logotypes, voice, and guidelines a small team can actually use day to day.

Packaging

Structural and surface design, from a single SKU to a full shelf system with print management.

Digital product

Interfaces, icon systems, and marketing sites that match the brand they carry.

SELECTED WORK

Fernwhistle Coffee

Rebrand & packaging · 2025

A neighborhood roaster heading for national shelves. We rebuilt the brand from the cup up: a warmer mark, a three-blend packaging family, and guidelines their team runs without us.

SELECTED WORK

Ondine Botanicals

Packaging system · 2026

A botanical skincare line growing from four products to fourteen. One system of graduated tones and typographic rules that scales to every new SKU without a redesign.

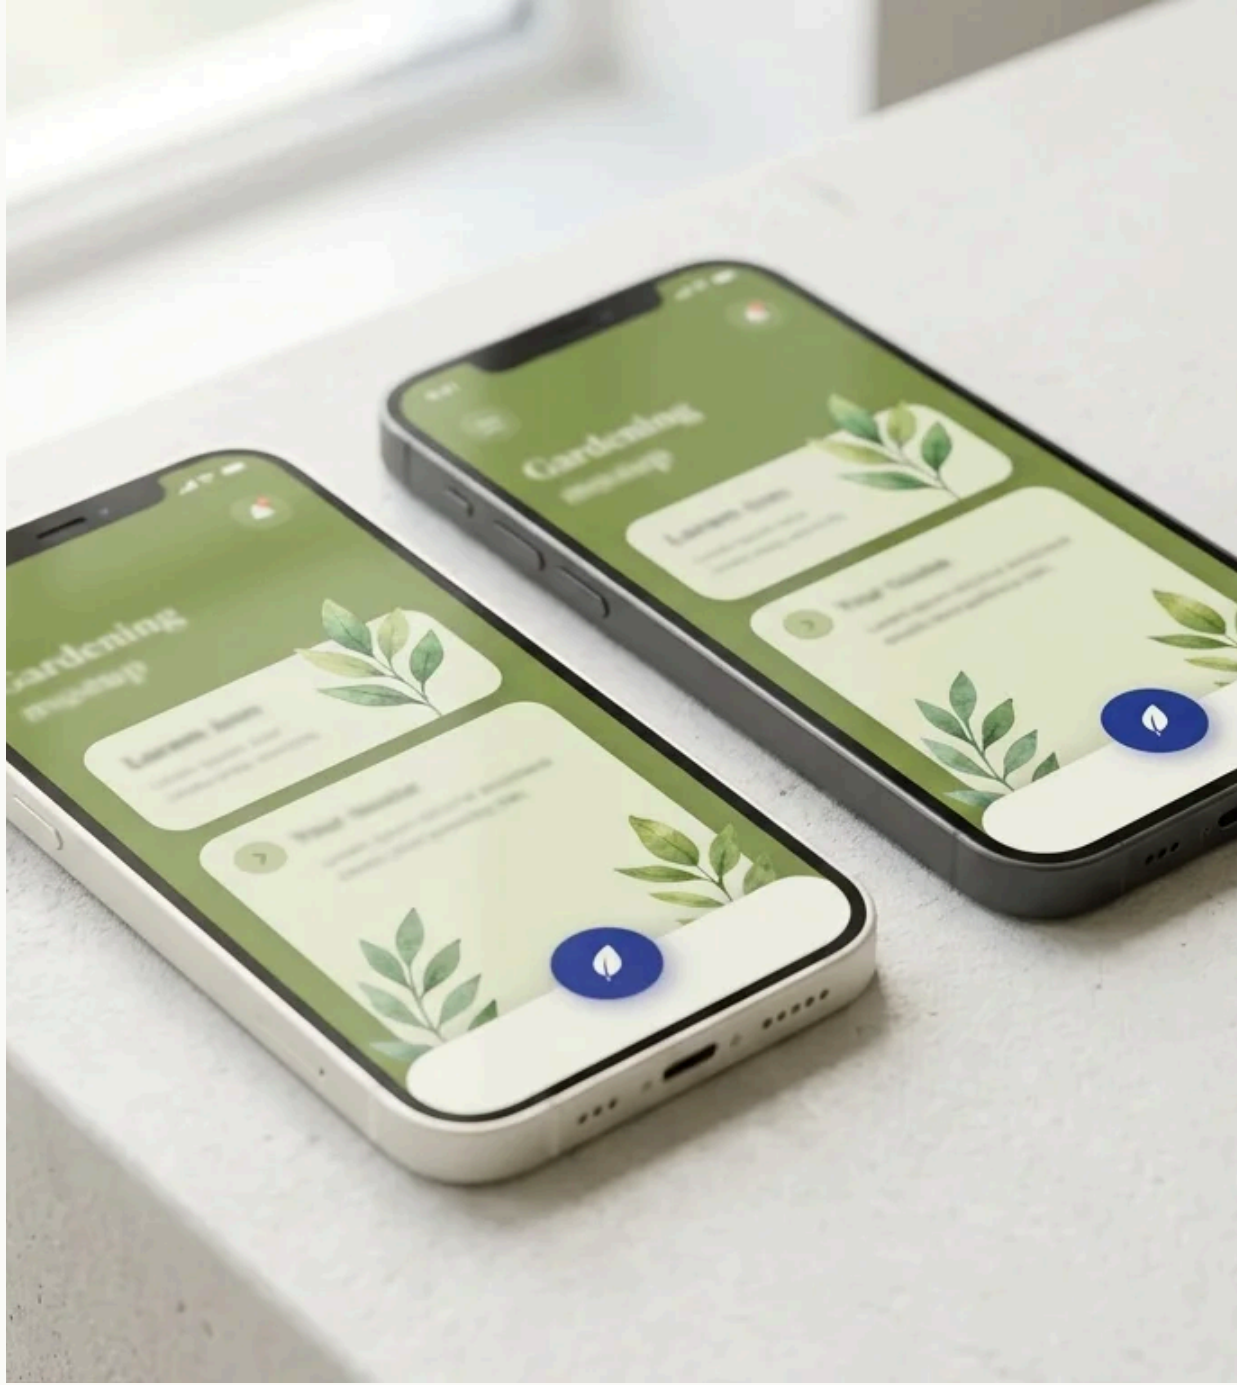

SELECTED WORK

Bramblewick

Identity & app design · 2026

A community-gardening app that needed to feel like a tool shed, not a tech company. Hand-drawn icon system, warm interface kit, and a brand voice to match.

PROCESS

How we work

1. Discovery — two weeks, in person when we can
2. Direction — two routes, one recommendation
3. Design — weekly working sessions, no big reveals
4. Delivery — documented systems, print-ready files
